In case of delivery by mail, the participant assumes all risk of late shipments.

As prescribed by the Italian law (art. 20 of law No.104, 5 February 1992) candidates with disabilities can request special aids and/or additional time for carrying out the competition. To this end, they must attach the medical certificate attesting disabilities to the application form.

The university does not assume any responsibility in case of loss of communications due to errors of residence and address of the candidate, failure or late notification of change of address and for any postal mistakes, not attributable to the administration itself.

The application deadline is mandatory, failure to comply will result in exclusion from the competition. It is the candidate's responsibility to make sure the online procedure has worked well as no claims about the IT system will be accepted.

Art. 5 - Selection Procedures

In order to check the candidate's aptitude for scientific research, the examination is conducted through the assessment of titles, possibly supplemented by a written test or interview or both. The candidate may also be asked to present a research project to be sent together with the application.

During the interviews, the Commission will examine the knowledge of at least one foreign language, according to the guidelines for each course, as specified in Annex 1 to the announcement.

The examination can also be carried out in a foreign language indicated for each PhD Program.

For foreign candidates, assessment procedures can be made also electronically. Accordingly, candidates residing abroad can take their assessment by Videoconferencing (e.g., Skype or similar). In this case the applicant must fill out the appropriate form (Request Interview In Videoconference) and attach it to the application form, along with a valid document of identity. The interview may be taken in one of the foreign languages as indicated, for each competition, in Annex 1.

The form must contain the name of the chosen platform (Skype or similar) and address of the user that will be used by the Commission for the video call. The candidate must be personally available on the day indicated for the interview, according to the schedule provided by each PhD program (Annex 1).

For identification purposes, each candidate is required to identify themselves before the interview begins, exhibiting the identity document already provided as a copy in the application.

Failure to contact the candidate, the unavailability of the candidate on the examination day or in the timetable established or failure to present valid identification document, are grounds for exclusion from the selection procedure.

The University of Basilicata does not assume responsibilities for technical reasons preventing the proper interview.

The modality of examinations, determined for each PhD program and each curriculum and the dates of the tests, are given in the individual sections of each PhD program in Annex 1 to this announcement.

The Commission can assign a maximum of 100 points to each candidate.

Tab of each PhD program (see Annex 1) shows the points available for each test, the award criteria, the minimum score for admission to any subsequent tests.

For the candidates who will obtain their Master Degree by and no later than October 31, 2014, the Commission will establish the criteria for awarding the score for titles.

The list of candidates eligible to take any tests subsequent to the valuation of their titles will be made public on the website of the University <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>.

The publication of those admitted to the examination, dates and locations of the examinations, has legal intents and purposes, and applicants must present themselves with a valid identity document, without prior notification, at the office, at the day and time indicated online.

UNIVERSITÀ DEGLI STUDI DELLA BASILICATA
UFFICIO RICERCA E RELAZIONI INTERNAZIONALI – DOTTORATI DI RICERCA

Any changes will be announced on the website of the university at: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>. Applicants are therefore required to check for any updates to the Annex 1, also closely to the examination date. Candidates they do not look will be excluded from the competition.

Art. 6 – Examination Committee

The committees responsible for the evaluation of candidates for each PhD Program are appointed by the Rector, once designated by the PhD College among professors and researchers, also part of the College, specifically qualified in the relevant areas of science to which the PhD program refers. The Commission can be integrated with experts, from Italian public and private research entities, which found or contribute to the activities of the PhD program.

If the PhD program is divided into more than two curricula, the number of experts may be increased up to the number of the same curricula.

Each commission will be published on the Internet at: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>.

Finally the Commission shall draw up a special report containing detailed examination results, as well as an opinion on the interview performed by each candidate and the detailed list of points given, and the final ranking. Where the PhD program provides for positions reserved to foreign candidates, they can be ranked in a separate list.

In case of these positions will be not assigned, they may be made available to other candidates, which resulted eligible. The merit list of candidates is formulated according to the order of the total score for each candidate. The overall scores are the sum of those achieved in the evaluation of the titles and any additional tests. In case of candidates will renounce, replacing candidates will be identified. The merit list will be made public through posting on the official web site of University of Basilicata as well as electronically on the website: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>.

They will not be personal communications to candidates.

Art. 7 – Admission

Candidates will be admitted to the PhD program in order of ranking, up to the number of positions available for each PhD program.

At the firsts in the list will be awarded the scholarships, up to the number of grants available.

In the case of equal merit, the assessment of the economic situation will be determined in accordance with DPCM 30.04.1997 and 09.04.2001. In case of a further tie, the youngest candidate (ex art. 3 L. 127 of 15.05.1997, amended by art. 2, para. 9 of Law 16.06.1998, n. 191) will be awarded.

Within each curriculum, in accordance with the above criteria, assignment of scholarships will be made on the basis of the evaluation and abilities of candidates assessed during the interview and based on the research project submitted.

In the case of grants assigned to a curriculum with lack of winners (for this specific curriculum), these scholarships can be assigned by the Academic Board to eligible candidates according to the merit list and requirements and abilities of candidates.

Cancellation, failure or delay of scholarship acceptance shall be expressed within 5 (five) days by the notification of PhD program admission on the website: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>. In the case, their positions shall be assigned to qualified candidates according to the order of the list of accepted students.

If one candidate is ranked in more than one PhD program list, he/her must choose only one PhD program. The option must be posted promptly within five days of publication of the candidate admitted lists on the website of the University. The choice of the PhD program, carried out at the time of enrollment, is definitive and the candidate cannot change it in any way.

Art. 8 – Registration

The forms for registration can be found on the University website at: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/adempimenti-vincitori.html>

| Durata duration | 3 anni / 3 years |
| Curriculum curriculum | <ol style="list-style-type: none"> 1. Geo-Systems, Geo-Resources and Environmental Safeguard 2. Applied Biology |
| Obiettivi e tematiche Aims and topics <p>Il Dottorato in “Applied Biology and Environmental Safeguard” rappresenta l’evoluzione di esperienze che negli anni passati hanno coinvolto docenti e ricercatori della comunità scientifica dell’Università della Basilicata, e di Università straniere convenzionate, nel dottorato internazionale in “Bioecosistemi e Biotecnologie/BioEcoSystems and BioTechnology”. Nella sua nuova veste, il dottorato s’inserisce nel settore interdisciplinare delle scienze biologiche e naturali, al crocevia di diversi campi di studio che hanno in comune il linguaggio e il metodo scientifico. Esso si propone di fornire agli studenti gli strumenti per la ricerca applicata in biologia animale, vegetale, microbica e ambientale, oltre che per la ricerca negli ambiti di monitoraggio ambientale, conservazione, protezione dell'ambiente, e utilizzazione delle risorse naturali, aprendo la strada a programmi di ricerca sui “Geo-Sistemi e Geo-Risorse”, ed implementando nuove Green and White Technologies nella utilizzazione delle risorse naturali.</p> <p>Il Dottorato in “Applied Biology and Environmental Safeguard”, dunque, riunisce in se le competenze del precedente dottorato internazionale in “Bioecosistemi e Biotecnologie/BioEcoSystems and BioTechnology” e quelle del concluso dottorato in “Scienze della Terra”, entrambi afferenti al Dipartimento di Scienze, e nasce con l’intento di affrontare ricerche che abbiano forti ricadute applicative, privilegiando l’innovazione tecnologica pur senza trascurare la ricerca di base.</p> | <p>Web site: http://www.phd-science.eu/index.php/en/</p> <p>The PhD program in "Applied Biology and Environmental Safeguard" represents the evolution of experiences that in the past have involved teachers and researchers in the scientific community of the University of Basilicata, and affiliated foreign universities, in the international doctorate "Bioecosistemi and Biotechnology / BioEcoSystems and BioTechnology". In this new identity, the PhD program fits into the interdisciplinary field of biological and natural sciences at the crossroads of several fields of study that have a common language and scientific method. It aims to provide students with the tools for applied research in animal biology, plant, microbial and environmental fields, as well as for research in the areas of environmental monitoring, conservation, environmental protection, and utilization of natural resources, paving the way to research programs on "Geo-Systems and Geo-resources", and implementing new Green and White Technologies in the utilization of natural resources.</p> <p>The PhD program in "Applied Biology and Environmental Safeguard", therefore, combines the powers of the previous international doctorate in "Bioecosistemi and Biotechnology / BioEcoSystems and BioTechnology" and those included in the doctoral program in "Earth Sciences", both of the Department of Sciences. Moreover, this PhD programme has been created to address research areas that have strong application outcomes, focusing on technological innovation without neglecting basic research.</p> |

| PhD HISTORY, CULTURE AND KNOWLEDGES OF MEDITERRANEAN EUROPE FROM ANTIQUITY TO CONTEMPORARY AGE | |
| Department / School | Department of Human Sciences |
| Round | XXX |
| Coordinator | Prof. Aldo Corcella - Department of Human Sciences - email: aldo.corcella@unibas.it |
| Duration | 3 years |
| Curriculum | 1. Civilization, institutions and territory in the Mediterranean 2. Literatures, languages, cultures and knowledge in Mediterranean Europe |
| Objectives and themes | The PhD aims at providing PhD students with the skills required to high quality research, as a result of a strong integration between "knowledge" and "know-how". The planned three-year course (on a plurality of focuses, from theoretical debate to history of mentalities and thought, literary history, social-economic as well as political-institutional history) allows PhD students in conducting original research and of high scientific level with particular regard to the analysis of relations between Southern Italy and other countries and / or areas of European countries in Mediterranean basin. Besides interest for the historical dynamics 1) there is a special focus on the artistic, linguistic, literary, philosophical, and generally cultural experience 2) For both <i>curricula</i> , the PhD student will get, on one hand, the ability to exploit all possible sources (from historical and archaeological, to linguistic, literary, artistic and philosophical and audiovisual documents) for historical reconstruction, to learn to consider other intellectual forms in their historical dimension.
