Certificates in a language other than Italian, must also be translated and authenticated by the competent Italian diplomatic or consular authorities. An Italian translation must be attached to all documents written in a language other than Italian and must be certified as conforming to the foreign text by a competent Italian diplomatic authority or an official translator.

Art. 5 - Selection Procedures

In order to check the candidate's aptitude for scientific research, the examination is conducted through the assessment of titles, possibly supplemented by a written test or interview or both. The candidate may also be asked to present a research project to be sent together with the application.

During the interviews, the Commission will examine the knowledge of at least one foreign language, according to the guidelines for each course, as specified in Annex 1 to the announcement.

The examination can also be carried out in a foreign language indicated for each PhD Program.

For foreign candidates, assessment procedures can be made also electronically. Accordingly, candidates residing abroad can take their assessment by Videoconferencing (e.g., Skype or similar). In this case the applicant must fill out the appropriate form (Request Interview In Videoconference) and attach it to the application form, along with a valid document of identity. The interview may be taken in one of the foreign languages as indicated, for each competition, in Annex 1.

The form must contain the name of the chosen platform (Skype or similar) and address of the user that will be used by the Commission for the video call. The candidate must be personally available on the day indicated for the interview, according to the schedule provided by each PhD program (Annex 1).

For identification purposes, each candidate is required to identify themselves before the interview begins, exhibiting the identity document already provided as a copy in the application.

Failure to contact the candidate, the unavailability of the candidate on the examination day or in the timetable established or failure to present valid identification document, are grounds for exclusion from the selection procedure.

The University of Basilicata does not assume responsibilities for technical reasons preventing the proper interview.

The modality of examinations, determined for each PhD program and each curriculum and the dates of the tests, are given in the individual sections of each PhD program in Annex 1 to this announcement.

The Commission can assign a maximum of 100 points to each candidate.

Tab of each PhD program (see Annex 1) shows the points available for each test, the award criteria, the minimum score for admission to any subsequent tests.

For the candidates who will obtain their Master Degree by and no later than October 31, 2015, the Commission will establish the criteria for awarding the score for titles.

The list of candidates eligible to take any tests subsequent to the valuation of their titles will be made public on the website of the University <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>.

The publication of those admitted to the examination, dates and locations of the examinations, has legal intents and purposes, and applicants must present themselves with a valid identity document, without prior notification, at the office, at the day and time indicated online.

Any changes will be announced on the website of the university at: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html>. Applicants are therefore required to check for any updates to the Annex 1, also closely to the examination date.

Candidates they do not look will be excluded from the competition.

Art. 6 – Examination Committee

The committees responsible for the evaluation of candidates for each PhD Program are appointed by the Rector, once designated by the PhD College among professors and researchers, also part of the College, specifically qualified in the relevant areas of science to which the PhD program refers. The Commission can be integrated with experts, from Italian public and private research entities, which found or contribute to the activities of the PhD program.

If the PhD program is divided into more than two curricula, the number of experts may be increased up to the number of the same curricula.

Each commission will be published on the Internet at: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html> .

Finally the Commission shall draw up a special report containing detailed examination results, as well as an opinion on the interview performed by each candidate and the detailed list of points given, and the final ranking. Where the PhD program provides for positions reserved to foreign candidates, they can be ranked in a separate list.

In case of these positions will be not assigned, they may be made available to other candidates, which resulted eligible. The merit list of candidates is formulated according to the order of the total score for each candidate. The overall scores are the sum of those achieved in the evaluation of the titles and any additional tests. In case of candidates will renounce, replacing candidates will be identified. The merit list will be made public through posting on the official web site of University of Basilicata as well as electronically on the website: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html> .

They will not be personal communications to candidates.

Art. 7 – Admission

Candidates will be admitted to the PhD program in order of ranking, up to the number of positions available for each PhD program.

At the firsts in the list will be awarded the scholarships, up to the number of grants available.

In the case of equal merit, the assessment of the economic situation will be determined in accordance with DPCM 30.04.1997 and 09.04.2001. In case of a further tie, the youngest candidate (ex art. 3 L. 127 of 15.05.1997, amended by art. 2, para. 9 of Law 16.06.1998, n. 191) will be awarded.

Within each curriculum, in accordance with the above criteria, assignment of scholarships will be made on the basis of the evaluation and abilities of candidates assessed during the interview and based on the research project submitted.

In the case of grants assigned to a curriculum with lack of winners (for this specific curriculum), these scholarships can be assigned by the Academic Board to eligible candidates according to the merit list and requirements and abilities of candidates.

Cancellation, failure or delay of scholarship acceptance shall be expressed within 8 (eight) days by the notification of PhD program admission on the website: <http://portale.unibas.it/site/home/ricerca/dottorati-di-ricerca/bandi.html> . In the case, their positions shall be assigned to qualified candidates according to the order of the list of accepted students.

If one candidate is ranked in more than one PhD program list, he/her must choose only one PhD program. The option must be posted promptly within eight days of publication of the candidate admitted lists on the website of the University. The choice of the PhD program, carried out at the time of enrollment, is definitive and the candidate cannot change it in any way.

Art. 11- Incompatibility

Registration in a PhD course is incompatible with enrolment in other undergraduate and postgraduate degrees, Italian University master courses, other PhD courses and specialised courses organized by private institutes pursuant to art. 17, paragraph 96, Law 127/1997.

Upon the enrolment, candidates registered in such courses must comply with the

incompatibility requirement mentioned above, under penalty of exclusion from PhD program. The relevant incompatibility rules are set out in articles 24 of the Regulations of PhD Programs of the University of Basilicata issued with the DR n. 238 of 10 July 2013 and to the current matters laws.

Art.12 - Duties and rights of PhD students

Students enrolled in the PhD Programs are required to attend and carry out all the activities of study and research in the related structure as prescribed by the Board of each PhD program.

Students are required to carry out collective and individual study and research activities, as indicated by the teachers and tutors. Students, as an integral part of the training project of the University, can apply, after the approval of the PhD Board and without any increase in scholarship, for tutoring of students in undergraduate and master's degree, and, within the limit maximum of forty hours in each academic year, supplementary teaching activities.

The rights and duties of PhD students are governed by law: Art 19 et following of the Regulations of PhD Programs of the University of Basilicata issued with the DR n. 238 of 10 July 2013. The same rules govern the frequency, permissions, suspensions, incompatibilities modes of graduation.

Students are required to observe the Ethic Code of the University Community, issued by DR n. 278 of 27 July 2011, available at: <http://portale.unibas.it/site/home/ateneo/statuto-e-regolamenti.html>

Doctoral students are required to periodically check the website: http://www.unibas.it/ateneo/dottorati_online1.asp , on which several notices are published such as deadlines, regulations, documents and all communications regarding graduate students (admission, enrollment in the course of several years, payment contributions, deadlines, forms, etc.). Any personal communication will be provided.

Art. 13 Award of the qualification

The PhD qualification is awarded at the conclusion of the PhD cycle, at the moment when the final examination is passed, which is subordinate to the presentation of a written thesis (PhD thesis). Students must provide a documented account of original research, conducted with certainty of method and leading to the emergence of results of sufficient academic relevance.

For the rules relating the final examination, please refers to Article. 21 of the Regulations of the PhD Programs of the University of Basilicata, issued with DR n. 238 of 10 July 2013.

Art. 14 Treatment and processing of personal information

In accordance with its Regulations issued in application of Italian Legislative Decree N° 196, dated 30 June 2003, the university hereby undertakes to respect the reserved nature of the information provided by applicants: all the information provided will be processed solely for purposes connected with and instrumental to the competition and the management of the applicant's relationship with the university, in compliance with the laws currently in force.

The data requested must be supplied for the evaluation process. If the data is not supplied, the candidate will be excluded from the selection procedure. Under art. 7 of Legislative Decree 196/2003, candidates have the right to access the data concerning them, as well as some complementary rights including the right to

amend, update, complete or delete erroneous or incomplete data, or data gathered without compliance to current legislation, and the right to oppose the use of the data for legitimate reasons. Participation in the competition implies, in accordance with the aforementioned law, tacit consent that personal data of applicants and those concerning the results, are posted on the website of the University of Basilicata.

Art.15- Advertisement

This announcement will be published on the website of the University of Basilicata at: http://www.unibas.it/ateneo/dottorati_online1.asp and on the website of MIUR. The publication will be announced in the Official Gazette-IV Series special competitive examinations.

According to Law n. 241/90 and subsequent amendments and integrations, the coordinator of these procedures is the responsible of the Doctorate Office, e-mail: settoredottorati@unibas.it. It represents the evolution of experiences that in the past have involved teachers and researchers in the scientific community of the University of Basilicata, and affiliated to foreign universities, in international doctorate in "Bioecosistemi and Biotechnology / BioEcoSystems and BioTechnology". "In this new identity, the PhD program fits into the interdisciplinary field of biological and natural sciences at the crossroads of several fields of study that have a common language and the scientific method. It aims to provide students with the tools for applied research in animal biology, plant, microbial and environmental fields, as well as for research in the areas of environmental monitoring, conservation, environmental protection, and utilization of natural resources, paving the way to research programs on "Geo-Systems and Geo-resources", and implementing new Green and White Technologies in the utilization of natural resources.</p> <p>The PhD program in "Applied Biology and Environmental Safeguard", therefore, combines the powers of the previous international doctorate in "Bioecosistemi and Biotechnology / BioEcoSystems and BioTechnology" and those included in the doctoral program in "Earth Sciences", both of the Department of Science. Moreover, This PhD program has been created to address research areas that have strong application outcomes, focusing on technological innovation without neglecting basic research.</p> |

Modalità di ammissione

La procedura di valutazione si svolge mediante la valutazione dei titoli integrata da un colloquio. I candidati dovranno presentare un progetto di ricerca relativo al curriculum prescelto, e, nell'ambito di questo ad una delle possibili tematiche, che sarà valutato unitamente ai titoli. Durante il colloquio sarà accertata la conoscenza di una lingua straniera. Per i candidati stranieri è prevista l'ammissione attraverso la valutazione dei titoli integrata da un colloquio in modalità telematica. I candidati dovranno presentare un progetto di ricerca, proposto dal candidato, che sarà valutato unitamente ai titoli. Durante il colloquio sarà accertata la conoscenza della lingua italiana.

The selection procedure is conducted through the assessment of titles supplemented with an oral interview. The candidate may also be asked to present a research project during the interview relative to the selected PhD Curriculum, which will be evaluated jointly to the titles. During the interviews, the Commission will examine the knowledge of at least one foreign language (English)

Foreign applicants residing abroad can be admitted through the assessment of titles and an interview using videoconferencing systems (eg Skype or similar). Applicants must submit a research project, which will be evaluated together with the titles during the interview. During the interview the knowledge of the Italian language will be also assessed.

- **Valutazione titoli:** fino ad un massimo di punti 60; Saranno ammessi al colloquio soltanto i candidati che avranno ottenuto una valutazione titoli pari almeno a punti 36

necessarie all'esercizio dell'attività di ricerca di alta qualificazione, quale risultante di una forte integrazione fra "sapere" e "saper fare". Il percorso triennale programmato (riguardante una pluralità di ottiche, da quella relativa al dibattito teorico a quella riguardante la storia della mentalità e del pensiero, la storia letteraria, la storia economico-sociale, nonché la storia politico-istituzionale) consente lo svolgimento di ricerche originali e di alto livello scientifico con particolare attenzione per l'analisi dei rapporti tra il Mezzogiorno d'Italia e gli altri Paesi e/o aree dell' Europa affacciati sul bacino del Mediterraneo. All'interesse per le dinamiche storiche si affianca una speciale attenzione alle esperienze artistiche, linguistiche, letterarie, filosofiche e generalmente culturali. Il dottorando acquisirà da un lato la capacità di mettere a frutto tutte le fonti possibili (dalle testimonianze storiche e archeologiche a quelle linguistiche, dai documenti letterari, artistici e audiovisivi alle riflessioni filosofiche) ai fini della ricostruzione storiografica, dall'altro apprenderà a considerare le forme intellettuali nella loro dimensione storica.

strong integration between "knowledge" and "know-how". The planned three-year course focuses on a plurality of themes, from the theoretical debate to the history of mentalities and thought, literary history, social-economic as well as political-institutional history. The course will enable PhD students to conduct original research at a high scientific level, with a special concern for the analysis of the relations between Southern Italy and other countries and / or areas of European countries in the Mediterranean basin. The interest for the historical dynamics will be accompanied by a special focus on the artistic, linguistic, literary, philosophical, and generally cultural experience. Within both *curricula*, the PhD student will get, on one hand, the ability to exploit all possible sources for historical reconstruction (historical, archaeological, linguistic, literary, artistic, philosophical, as well as audiovisual documents); moreover, he will learn to consider the intellectual expressions in their historical dimension.
